

Anthony Magdalena

San Diego, CA | (619) 706-2414 | onyx.anthony@icloud.com | onyxmode.co

Web developer & designer · client-proven · San Diego local · Available immediately

SUMMARY

Self-taught web developer and designer who builds, maintains, and updates websites for paying clients as a one-person studio. Hands-on daily with HTML, CSS, JavaScript, responsive design, content updates, site migrations, payment and calendar integrations, and deployment. Detail-oriented and creative, comfortable collaborating with clients and content creators, and experienced writing and enforcing brand standards across sites. Learns new platforms and content management systems fast, a pattern proven across an entire self-taught career.

RELEVANT CAPABILITIES

- **Website development & maintenance:** building, updating, and migrating sites; content updates on live client sites
- **Usability & mobile responsiveness:** responsive, user-friendly builds are the default on every project
- **Site functionality & integrations:** payment links (Stripe), date-picker booking calculators, redirects, forms, deployments (Netlify, GitHub Pages)
- **Collaboration & standards:** works directly with clients and content creators; writes full brand systems (palette, type, voice) and keeps sites aligned to them
- **Email & content production:** client newsletters, proposals, and marketing content

WEB & CREATIVE EXPERIENCE

Founder / Web Developer & Designer — Onyx Studio

San Diego, CA | 2024 to Present

- Design, build, and maintain client websites end to end: structure, content, styling, integrations, deployment, and ongoing updates
- Built a car-rental booking site with per-vehicle Stripe payment links and a date-picker that computes rental totals; deployed for client demo
- Delivered a complete rebrand for a real-estate client: website redesign, brand identity system, and content direction
- Designed and shipped my own studio site (onyxmode.co), including a full site migration and redesign
- Write brand standards (color, typography, voice) and keep every page consistent with them, the same discipline a university web standard requires
- Collaborate with clients on site structure, navigation, and content; translate non-technical requests into working pages
- Use AI-assisted development workflows (Claude, ChatGPT) plus light Python automation for builds and deployment

Creative Production Background — Music Producer / Audio Engineer

San Diego, LA, Antwerp | 2008 to Present

- Fifteen years of self-taught technical production: taught myself professional audio software as a teenager, released records, produced albums for clients
- The relevant part for this role: a proven, repeated pattern of mastering complex technical systems quickly without formal training

ADDITIONAL WORK HISTORY

Customer Service Associate — Sprouts Farmers Market

San Diego, CA | 06/2026 to Present · reliable current employment

Sales Associate — Nordstrom / Warehouse & Inventory — J&K Cabinetry, A&G Cabinets

San Diego, CA | 2020 to 2023 · top 3 in department sales; records and inventory accuracy

SKILLS & TOOLS

- **Web:** HTML, CSS, JavaScript, responsive design, site builders and CMS platforms, migrations, redirects, forms
- **Integrations & deployment:** Stripe payment links, booking/date calculators, Netlify, GitHub Pages, Git basics
- **Design & content:** brand identity systems, typography, layout, image and video production (DaVinci Resolve)
- **Productivity:** Google Workspace, Word, Excel; AI-assisted workflows; light Python automation

EDUCATION & TRAINING

Community college coursework, San Diego (4 years, general studies)

LA Film School — Film Production Studies, 2016

Self-directed: web development, design, and audio engineering (ongoing since 2008), per the position's education/experience substitution provision

San Diego local. Available immediately. Telecommute-ready home office with professional Mac setup.
